On an area of 55,000 square meters in New Cairo

Al Wazzan: we are keen to provide innovative solutions for providing safe investment opportunities in environment-friendly communities that enjoy the highest quality standards and international specifications. The project provides diversified administrative spaces with payment systems of up to 7 years, suitable for various business sectors and companies.

Cairo, 28 February 2022: Development and Engineering Consultants Company (TAMEER), one of the leading real estate development companies, announced the launch of its new project, Urban Business Lane "UBL," which is one of the largest investment businesses districts in the New Cairo area.

The project is located on more than 55,000 square meters. It enjoys a modern vision and an innovative philosophy, which makes the project represents a qualitative leap in the concepts of commercial and administrative development projects to keep pace with the developments that Egypt is currently witnessing at all levels.
